**H.R. 2643 – PART I** – Amendments to the Interior, Environment, and Related Agencies Appropriations Bill, FY 2008

H.R. 2643, the Interior, Environment, and Related Agencies Appropriations Act, FY 2008 (sponsored by Rep. Norman Dicks, D-WA), is scheduled to be considered on the House floor on Tuesday, June 26, 2007, subject to an open rule ([H.Res. 514](#)), making in order any germane amendment under the five-minute rule. The rule allows one motion to recommit with or without instructions.

The rule waives all points of order against consideration of the bill, except those regarding PAYGO and earmarks, and allows the Chair to postpone consideration of the legislation at any time during its consideration. The rule also waives the no-authorizing-on-appropriations point of order against provisions in the underlying bill.

Note: The summaries below are based on RSC staff's review of *actual amendment text*. For a summary of the underlying bill, see a separate RSC document released earlier today.

### Amendments Pre-Filed in the Congressional Record

**Salazar (D-CO) #1:** Prohibits any funds from being used for oil and gas leasing on lands in Colorado that were formerly designated as “Naval Oil Shale Reserves 1 and 3” that were not open to such leasing on May 15, 2007. According to [an editorial](#) in favor of the amendment that appeared in the Washington Post on June 26, 2007, the Bureau of Land Management (BLM) recently opened a large portion of Colorado’s Roan Plateau to natural gas development.

**Udall (D-CO) #2:** Prohibits funds from being used to prepare regulations regarding a commercial leasing program for oil shale resources or to conduct an oil shale lease sale under subsection 369(e) of the Energy Policy Act of 2005.

**Udall (D-CO) #3:** Prohibits funds for the BLM to establish regulations that would allow the agency to administratively approve claims for ownership of rights-of-way across public or private lands under a now-repealed provision of the Mining Law of 1866.

**Conaway (R-TX) #4:** Expresses the sense of the House that “any reduction in the amount appropriated by this Act achieved as a result of amendments adopted by the House should be dedicated to deficit reduction.”

**Conaway (R-TX) #5.** Strikes section 104, which prohibits funds from the bill from being used for the leasing or preleasing of offshore areas in California, the North Atlantic, the Pacific Northwest, and the eastern Gulf of Mexico. According to the Department of Energy, a [moratorium](#), issued by George H.W. Bush in 1990 and extended through 2012 by President Clinton in 1998, is meant to restrict any new offshore oil drilling in those areas. The amendment effectively ends the moratorium on deep-sea, offshore drilling.

**Conaway (R-TX) #6.** Strikes section 105, which prohibits funds from the bill from being used by the Department of Interior to conduct oil and natural gas leasing and preleasing in the Mid and South Atlantic, thus lifting the moratorium on deep-sea, offshore drilling in the area.

**Johnson (D-TX) #7:** Prohibits any funds from being used to promulgate EPA regulations concerning standards for air pollution. The amendment would prohibit the implementation of a new EPA regulation that does away with the “once in, always in” standard for regulating the “maximum achievable control technology” (MACT) measure for air pollution.

For more information on the change in EPA regulations concerning MACT, [click here](#).

**Brown-Waite (R-FL) #8:** Reduces funding for the National Endowment for the Arts by \$32 million (from \$160 million to \$128 million).

**Conaway (R-TX) #9:** Reduces funds for the office of the Inspector General by \$2 and subsequently increases it by \$1. Increases funds for State and Tribal Assistant Grant Program (STAG) by \$2.

**Davis, Tom (R-VA) #10:** Strikes section 104, which prohibits funds from the bill from being used for the leasing or preleasing of offshore areas in California, the North Atlantic, the Pacific Northwest, and the eastern Gulf of Mexico. According to the Department of Energy, a [moratorium](#), issued by George H.W. Bush in 1990 and extended through 2012 by President Clinton in 1998, is meant to restrict any new offshore oil drilling in those areas. The amendment effectively ends the moratorium on deep-sea, offshore drilling.

**Davis (R-VA) #11:** Strikes section 105, which prohibits funds from the bill from being used by the Department of Interior to conduct oil and natural gas leasing and preleasing in the Mid and South Atlantic, thus lifting the moratorium on deep-sea, offshore drilling in the area.

**DeFazio (D-OR) #12:** Establishes a technical list of responsibilities for the “resource advisory committee” that was established under the Secure Rural Schools and Community Act of 2000. The Secure Rural Schools Act was reauthorized in the Iraq supplemental and the advisory committee was established without specific instructions. The Amendment instructs the advisory committee to:

- Monitor projects submitted by that committee that have been approved by the Secretary of the Interior or the Secretary of Agriculture;
- Advise the designated Federal official on the progress of monitoring efforts; and
- Make recommendations to the Secretary of the Interior or the Secretary of Agriculture regarding any changes or adjustments to the projects being monitored by the committee.

**Dent (R-PA) #13:** Prohibits any funds from being used to administer or enforce section 20(b)(1) of the Indian Gaming Regulatory Act, which allows the establishment of casinos on newly acquired Indian land if it is determined to be in the “best interest” or the tribe and the community.

**Dicks (D-WA) #14:** Reduces by \$5 million (from \$5 million to \$0), a fund directed for the EPA to review scientific challenges caused by climate change, and reduces the Office of the Inspector General’s budget to repair and renovate facilities by \$5 million (from \$43.5 million to \$38.5 million). Increases funds for State and Tribal Assistance Grant’s Federal Water Pollution Control Act by \$15 million (from \$75 million to \$90 million) and increases the Drinking Water State Revolving Funds by \$15 million (from \$842.1 million to \$857.1 million).

**Ellsworth (D-IN) #15:** Reduces funds for the Smithsonian Institution’s salaries and expenses by \$2.63 million (from \$536.29 million to \$533.66 million).

**Hastings (D-FL) #16:** Reduces and increases the National Park Service’s operational budget by \$1 million.

**Inslee (D-WA) #17.** Prohibits funds in the bill from being used to issue any permit for, or approve or allow, importation of any polar bear (or part) under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1374(c)(5)(A)).

**Jackson-Lee (D-TX) #18.** Increases, then decreases, the National Park Service Save America’s Treasures account by \$1 million.

**Jackson-Lee (D-TX) #19.** Prohibits funds in the Act from being used to limit outreach programs administered by the Smithsonian Institution.

**Jackson-Lee (D-TX) #20.** Prohibits funds in the Act from being used to eliminate or restrict programs that are for the reforestation of urban areas.

**Jindal (R-LA) #21.** Decreases, then increases, the EPA Environmental Programs and Management account by \$2.5 million.

**Jordan (R-OH) #22.** Reduces the overall appropriations in the Act by 4.3 percent, except those amounts that are “not required to be appropriated or otherwise made available by a provision of law.” This amendment would return funding to the FY2007 enacted level.

**Kingston (R-GA) #23.** Prohibits funds in the Act from being used to enter into a contract with any entity that does not participate in the basic pilot program described in section 403(a) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note).

**LoBiondo (R-NJ) #24.** Reduces, then increases, the Toxic Substances and Environmental Public Health account at NIH by \$1 million.

**McHugh (R-NY) #25.** Reduces, then increases, the EPA Science and Technology account by \$1 million (currently at \$788.269 million).

**Mica (R-FL) #26.** Decreases, then increases, the National Park Service Historic Preservation Fund Construction account by \$4 million.

**Musgrave (R-CO) #27.** Reduces the overall appropriations in the Act by 0.5 percent, except those amounts that are “not required to be appropriated or otherwise made available by a provision of law.”

**Nunes (R-CA) #28.** Reduces funds for the Forest Service International Program by \$3.7 million (from \$8 million to \$4.3 million); increases funds for the National Forest System by \$2 million (currently at \$1.506502 billion). Since the increase and decrease amounts vary, it is assumed this is due to different outlay rates. According to the sponsor’s office, “The President asked for \$2.5 million for the program and the Appropriations Committee increased it to \$8 million. The Nunes Amendment simply moves \$3.7 million of that money into the National Forest System fund for marijuana eradication. That leaves \$4.3 million which is still over the President’s budget.”

**Price (R-GA) #29.** Reduces overall appropriation in the Act by \$276.330 million, a 1 percent funding reduction.

**Shays (R-CT) #30.** Decreases, then increases, the Bureau of Indian Affairs Indian Programs account by \$1 million. The amendment sponsor states that this amendment would designate an additional \$1 million (from \$1.9 million to \$2.9 million) to the Office of Federal Acknowledgement account in order to hire additional investigators to process pending petitions (to federally recognize additional Indian tribes).

**Upton (R-MI) #31.** Prohibits funds from being used to purchase light bulbs, unless the light bulbs have the “ENERGY STAR” or “Federal Energy Management Program” designation.

**Weiner (D-NY) #32.** Increases funding for the National Park Service by \$1 million (currently funded at \$2.046809 billion); decreases funding for the Interior Department Salaries and Expenses account by \$1 million.

**Weiner (D-NY) #33.** Requires the Interior Secretary to provide public access to the Statue of Liberty that is “substantially the same” as it was prior to September 11, 2001. According to the sponsor, the Statue of Liberty is the only National Park not fully re-opened since the attacks of 9/11. The average annual tourism to the Statue of Liberty has dropped from 5.5 million to 3.26 million visitors since the initial closure.

**Hensarling Amendments #34-#76: National Park Service’s Save America’s Treasures.**

The Save America's Treasures program was created by an Executive Order from President Clinton in 1998. The program was designed as a public-private effort to protect threatened cultural and historical treasures in America. During its tenure the program has endeavored to protect the Liberty Bell, the flag that inspired the "Star Spangled Banner" and the writings of James Madison. In spite of its stated intent to protect only legitimate American historical treasures, the program now funds a wide array of pet projects with no broad historical significance. By 2006, Save America's Treasures was conducting 1,500 distinct projects. The projects ranged from remodeling local theaters, to court house renovations, to converting firehouses into art galleries. Each one of the 43 earmarks in the Save America's Treasures account will be targeted by an amendment pre-filed by Chairman Hensarling. The amendments, which limit funding to both Republican and Democrat earmarks, would prohibit \$6,000,000 in earmarks.

**Hensarling Amendments #77-#221: EPA, State and Tribal Assistance Grants.**

The Environmental Protection Agency's (EPA) State and Tribal Assistance Grants (STAG) provide funding for local water and sewer projects. The Interior/Environment appropriation includes 141 different earmarks for local water utility projects, totaling \$69,306,500. In order to have an opportunity to challenge these earmarks, Chairman Hensarling has filed 141 amendments to limit funding to each earmark in the STAG account, regardless of the requesting member's Party. The EPA program is an account where the President specifically recommended a reduced level of earmarks because: "they are not subject to the State priority setting that typically ensures cost-effective and higher priority activities are funded first. These earmarks require even more oversight and technical assistance from EPA than standard grants because many recipients are unprepared to spend or manage the funds. Earmark projects also generally take several years to complete, requiring EPA resources for an extended period of time."
